

Dear Parents,

We sincerely hope that you and your families are doing well. These are especially difficult times for those of us with young children. We are considering reopening the Chalice Playroom, with the hope that this will offer parents an opportunity for respite while at the same time providing our children the opportunity to continue participating in hands on faith based UU curriculum.

Precautions will be taken to keep your family safe while participating in any programming. Below is a brief outline we are proposing and we are open to any suggestions you may have. We need to know how you feel about having your family participate in onsite programming, outdoor activities or if you would prefer a virtual/online method.

Help us gain a better understanding of your preferences by answering this short questionnaire.
